

Our Gift to You

We greatly value the role we play in early childhood education and care and are delighted to support our families with complimentary access to Nourish Baby – Australia’s leading provider of online antenatal and early parenting education.

We are offering families access to either Baby Sleep Guide or the Positive Parenting Course, to support you on your parenting journey.

Simply scan the QR code below to access these online parenting courses. Speak to your centre to receive your access code.

Baby Sleep Guide **BIRTH - 12 MONTHS**

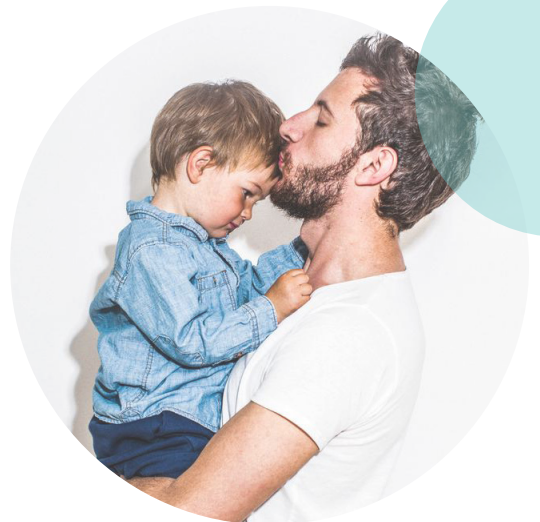

The first 12 months of life are a period of incredible growth in all areas of a baby’s development. Learn how early relationships can promote healthy brain development, how young babies build social and emotional skills, and ways you can support your baby’s growth and development starting from birth.

Positive Parenting Course **1 - 3 YEARS**

As an infant develops into a toddler, they become increasingly aware of the world around them. While this can be an exciting time for a toddler, it can also be challenging and frustrating for both toddler and carer, as they begin to exert their independence and insist on doing things on their own.
